Definition
Laser
Technology
is the Fusion
of Photos,
Art and
Stone.

A

Capturing Your Treasured Memories With High Clarity

Imagine capturing your loved one's story, gifts and memories with greater clarity and creativity. **HDL** technology allows you to greatly expand your artistic expression in the form of photographic imagery, graphic design, and personal photos. The permanency of granite will provide the inventive canvas to remember their legacy with high definition.

HDL technology allows the life and memories of your loved one to be captured in a permanent image with the greatest visual contrast and detail. This trendsetting process is designed to maximize the beauty of our darkest, most uniform Jet Black granite.

Legacy Memento

Phillip and Laurretta were destined from the start. Growing up in the small town of Warba, MN where everybody knew everybody, Phil and Laurretta quickly became childhood friends. That friendship evolved into much more and the two were married on Phillip's family farm in May of 1952. They soon took over the farm and spent their days working side by side. The monument chosen by their children depicts a background image of the farm, their farm logo and the children's favorite picture of their parents.

The Fusion of Memories Art & Stone

Think Visions of Love...

Your options are endless and the only limits that exist in building the perfect design for your loved one is your imagination. Creating their distinct life and true narrative can be done by combining any photo, scene, art or design that speaks to your heart. Give us the ideas and let our professional graphic artists do the rest. Your memories and emotions of true love will be forever carved in stone.

Starting Point

- Special Memories
- Career
- Family Touches
- Prized Possessions
- Events & Occasions
- Faith
- Social / Civic Contributions
- Interests & Hobbies

A word on resolution...

Laser technology is dependent on the resolution and size of the original artwork or photography. We require an image resolution of at least 300 Dots Per Inch (DPI) and original size of photo of 3-1/2" x 5" or larger in order to achieve optimal results. If the original photo is out of focus or it is taken in poor lighting conditions it will greatly affect the final result. We reserve the right to refuse any photo that does not meet our quality standards. Be aware that granite is a natural product with unique mineral composition, the final product will be impacted.

Legacy Memento

Mason Espebeth enjoyed his job as a linemen for a local energy company and made great friends working there. He was a loving father and was engaged to be married prior to the tragic car accident that took his life. His loved ones celebrate Mason at his grave site and spend special occasions there. This is where friends and family are reminded of the things that Mason loved, including fishing with his son, the job he loved, the truck he was proud of and the family that carries him in their hearts every day. Mason's son, Parker, wanted to be with his dad always so his actual handprint was lasered onto the stone. Mason's mother Joni, says her heart explodes with happy heartache when she looks at Mason's stone.

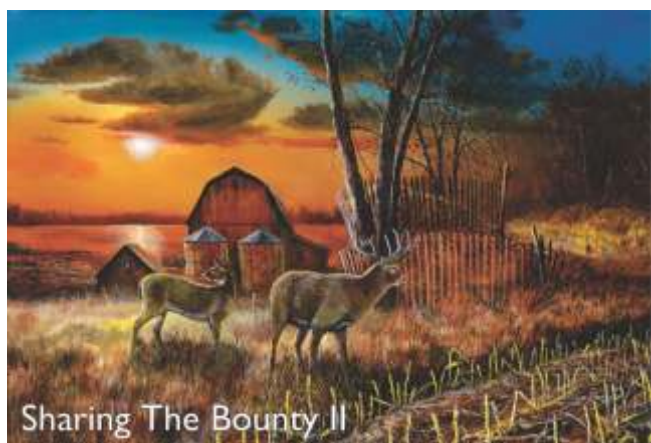

Laser Portraits by Jim Hansel

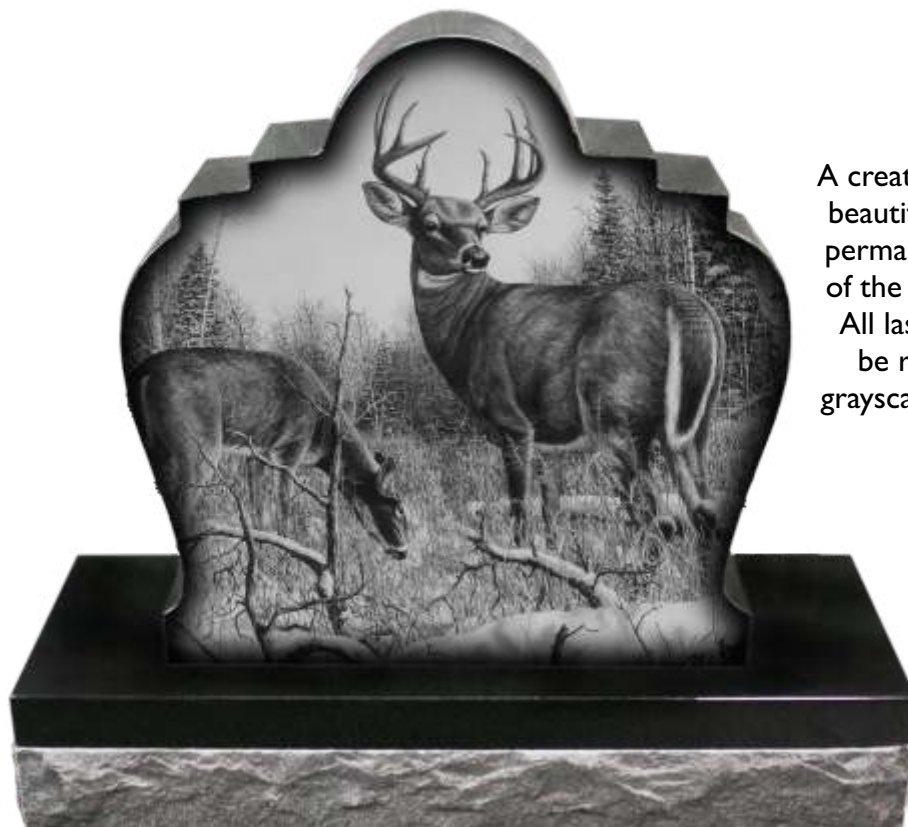

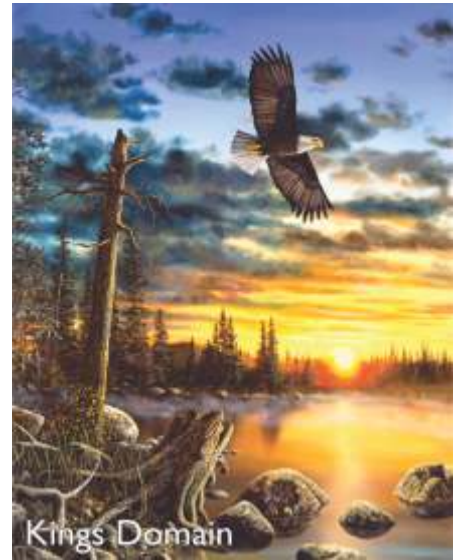

We are proud to offer the licensed artwork of Jim Hansel, one of America's premier wildlife, nature and landscape artists. At the age of 12, Jim was diagnosed with a degenerative eye condition called "Stargardts", which has left him legally blind. You can hear his story, as well as view and select any of one of his 175 limited edition prints for your unique memorial at

jimhanselart.com

A Selection of the more popular scenes

Laser Portraits by Jim Hansel

A creative way to add a beautiful, dynamic and permanent expression of the great outdoors. All laser designs will be reproduced in grayscale on the stone.

Design Selection

Shown are a variety of the many designs available to you. We have resources that provide you with thousands of high quality digital images that can be used. If there is something specific you would like and are not seeing, please inquire with our design department.
